Reflective Diary Template

Group Number: 067

Full Name	Jiawei Su
Role in group:	Leader
Role responsibilities:	Develop the methodology for the group, explore with different functions for 2 parts. Finished the first part with details and comments. Assist Jin for the second part.
Contribution to Group:	50%
Learnings from Project	High efficiency work, use the tutorial contents in the assessment
Learning Techniques	Parse pdf file, tokenization, remove stop words, static generation, Sparse Feature Generation, NLTK
What went well	Communicate and the working efficiency
What went wrong?	N/A
Resolution to solve issues:	N/A
Overall Conclusion: **To read the requirement carefully and thinking in a straight way, I didn't find too much that makes the questions more complex.**	

Full Name	Weiwei Jin
Role in group:	member
Role responsibilities:	Generate the pdf files into, static generation in task 2 , Documents
Contribution to Group:	50%
Learnings from Project	Code format, using the learning out come
Learning Techniques	Parse pdf file, tokenization, remove stop words, static generation, , Sparse Feature Generation
What went well	The teamwork goes well, and the communication is in an efficiency way.
What went wrong?	The begin time is a little bit late. So, we got a hurry work at the last moment.
Resolution to solve issues:	Do the work in an efficiency way and not waste time on the useless things.

Overall Conclusion:

The task beginning time definitely will begin early in the next time. I always want to think too many things. The logic need to improve for the data analysis and need to pay more attention during the tutorial to review the tutorial frequently. Also need to learning the coding formats, which will easy to read for my teammate.
